### **Webinar description:**

The Department of Chemical Engineering organized a Webinar on “Introduction to Manufacturing Processes and Efficiency: Where Economics meet Engineering” on 28<sup>th</sup> June 2020. The webinar was organized for all students of the Chemical Engineering Department. Prof. A. H. Prajapati introduced Dr. Sandeep Jagani to all participants. Dr. Sandeep Jagani gave information regarding what is process strategy, types of products and how to produce products and provide services. Dr. Sandeep Jagani shared his personal experience and knowledge for how to select the right process for your product and uses of crossover analysis. The session ended with a vote of thanks by Prof. A. H. Prajapati in appreciation to Dr. Sandeep Jagani for sharing his valuable time for interacting with students and faculties.

## Glimpses of Expert lecture

**What is a process Strategy?**

Creating a process to produce offerings that customer requirements within cost and other managerial constraints
